## Appropriation of \$25,000 To Combat Mine Fire Will Be Sought by Henderson

Representative and Highway Officials Find Decisive Action Needed.

### ROAD FALLS FOR 500 FEET

An inspection of the mine fire which is destroying the state road connecting Connellsville with points east, and the Lincoln Highway at Greensburg, was made yesterday afternoon by Joseph B. Henderson, representative in the Legislature, Frank Rush, superintendent of state highways in Fayette county, Wayne D. Meyers, engineer of the State Highway Department for District No. 14, W. O. Adrian, president of the Youghiogheny Automobile Club, and A. B. Norquist, secretary of the same organization.

He made a walk in for a distance of about a half mile to the fire to still burning. Mr. Meyers expressed his belief that it is about under control. Mr. Henderson, who will ask the State for an appropriation of \$25,000 to completely extinguish the fire and rebuild the road, went to the scene to get first-hand information of conditions to strengthen his arguments when he makes his plea for the money.

There is a considerable force of men at work, employed by the State. They are removing slate which has been cooled by being floated with water.

One of the officials expressed the belief that the only way to check the fire would be to build a steam shovel to clear the entire roadway than to build a new road.

"It looks like a desert," said one of the party who viewed the torn roadway yesterday. Cave-ins have occurred regularly, further evidence that the fire is still at work.

Mr. Meyers planned to telephone W. A. Van Duzer, assistant maintenance engineer of the State Highway Department at Harrisburg, who has complete charge of this district. It is possible arrangements will be made so Mr. Van Duzer, who is on the road to recovery, can attend the session. If he cannot come Mr. Henderson, who leaves tomorrow for the capital, will make an appointment to see him on Monday at Harrisburg and make a complete report of conditions.

**Children Ill, Home At Hammondyville Is Destroyed by Fire**

Special to the Courier.

**MOUNT PLEASANT, Feb. 3.**—Yesterday morning about 2 o'clock the home of Leroy Sanner of Hammondyville burned to the ground. House and the furniture were destroyed. Two of the Sanner children had been ill and Mrs. Sanner had been up to give them medicine and had fired up the stove. Needing rest she retired and the stove became overheated. When it was discovered the flames were burning out through the wall. The home is covered by insurance.

**Young Pinchot to Box Tim Drexler Here February 14**

The Fayette Athletic Club announced today that Young Pinchot of Charleroi, bantamweight champion of the State, will meet Tim Drexler of Moon Run at Shavish Hall, February 14.

A good semi-final and an unusual feature for the preliminary contest are being planned. It was announced.

**"Wolf of Wall Street" Missing**

By Associated Press.

**NEW YORK, Feb. 3.**—Federal agents going to the Hotel DuFour to take David Lamar, the "Wolf of Wall Street" to the Essex county penitentiary to serve a sentence for a wartime offense today discovered that Lamar had checked out of the hotel yesterday without leaving an addition.

**Army barracks Burn.**

**MONT. THOMAS, Feb. 3.**—Sixty-four barracks of the Post Thomas army reservation were destroyed by fire early today causing a loss of \$1,000. From 250 to 250 soldiers were asleep in the buildings when the fire started and were compelled to flee in their night clothes. None was seriously injured.

**No Action by Nations' League.**

**PARIS, Feb. 3.**—The council of the League of Nations at a general information session just before finally adjourning here today declined to put the reparation or Ruth occupation question on its program. This means that for the present there is no possibility of a League taking any initiative to work's institution between France and Germany.

### EIGHT EVERSON BOYS ARRESTED FOR ROBBERY

Charged with car larceny and breaking and entering, eight young Everston boys have been arrested by the Baltimore & Ohio police and given warrants before Alderman Fred Mink at 4 o'clock today.

Those arrested are Kenneth Hoyles, 18; Jesus Vaneo, 15; Frank Simon, 14; George Sherrick, 17; John Dasso, 16; Regis Connors, 12; Victor Semensky, 12; Robert Sherrick, 11; Hoyles' brother, 11; and Frank Dasso, 11.

The arrests followed a series of

petty annoyances at the Everston interchange. A number of cars have been stolen, broken in, and there have been petty thefts of candy and small articles. On the night of December 1, dynamite was stolen from a car of the Baltimore & Ohio. The police and the public have been asked to help in the search for the culprits.

The announcement is made by Dr. Simon W. Flexner, director of the Rockefeller Institute of Medical Research, who attributes the discovery to Dr. Peter K. Oltis and Dr. Frederick T. Gates, also to the Institute.

The Institute will soon experiment with antitoxins and anti-toxins.

So small is the germ that it must be magnified 1,000 times before it can plainly see the individual germs.

The germ lodges in the nose and throat during the first 24 hours and then attacks the lungs in such a way to make them susceptible to other germs in the nose and throat, notably those of pneumonia and bronchitis.

**WASHINGTON, Feb. 3.**—Resolutions calling the State and Treasury departments for reports as to the amount of liquor imported by the various embassies and legations in Washington since national prohibition became effective were introduced today by Representative Crumpton, Michigan.

Special to the Treasury Department will be asked for a statement

in detail of all diplomatic liquor im-

portations, the regulations governing

such importations and the legal auth-

ority under which the department acts. The State Department would be

asked to furnish whatever regulations

on this subject have been adopted by it, what certificate of identification it has issued, and to state the law under which it acts.

## Near Zero Weather Tonight, Even Colder Sunday; Whole Country Feels Disturbance

By Associated Press.

**PITTSBURG, Feb. 3.**—A blast of winter from the Northwest that caused sudden drops of temperature in the plains states last night was spreading over the United States today. It was predicted the cold wave would embrace the lower Lake region, the Ohio Valley, Tennessee and the interior of the east Gulf states not later than tonight reaching the Atlantic states tomorrow.

The Weather Bureau prediction for

western Pennsylvania said there

would be snow flurries tonight with a severe cold wave and temperatures

down to zero. It will be even colder Sunday when the temperature is

fall 10° below zero. Shallow drops

of temperature occurred throughout

the Northwest and North and South Dako-

ta. Snow was reported in some

districts.

Chicago's long continued cold

weather was routed by the northwest

and the cold wave that cut the tem-

perature down to 20° below zero to 15° above in a few hours.

SATURDAY EVENING, FEB. 8, 1923.

KEEPING OUR PLACE ON THE  
HANDBALL MAP.When it is understood that some  
uncertainty exists as to the Connellsville  
Independent baseball team re-  
organizing for the coming season, it  
is believed that there are a sufficient  
number of followers of the sport in  
Connellsville who will take such ac-  
tion as may be necessary to prevent  
leaving the place we have gained on  
the baseball map.It is quite true that the outlook is  
not altogether encouraging inasmuch  
as there is an indebtedness remaining  
from the previous season and, thus  
far, very little thought has been given  
to the matter except possibly by a  
few persons. But there is nothing  
so discouraging in the situation  
that any person who has a desire  
for the game national game need be  
deterred in joining with a number of  
other enthusiastic fans in planning  
for the reorganization of the club and  
a series of games. Apparently it is  
merely a matter of making a start in  
that direction, although it may require  
considerable time and some effort to  
lure up enough backers of the club  
to insure the success of the undertak-  
ing.J. J. Thompson, who of all local  
baseball enthusiasts has done most  
to keep the baseball spirit alive in  
Connellsville, feels that he should  
be allowed to retire from active man-  
agement. In view of the faithful ser-  
vice he has rendered he has earned  
his retirement, but he has so  
thoroughly proven his fitness for the  
job that the public — especially  
looks to him to take the leadership.In any case, it is more than prob-  
able that Mr. Thompson would  
announce his willingness to accept the  
management for another year if suffi-  
cient interest would be aroused to make  
the reorganization of the club a  
comparatively easy matter. It would not,  
however, be fair to ask Mr. Thompson  
to do all the work or to start upon  
the task without such assurances of  
support as will enable him to carry it  
through without too great encumbrances on  
his part.The Independents have played clean  
ball and have drawn no little attention  
of a favorable kind to our city as  
a place where good sports are ap-  
preciated. We can add to our reputation  
along this line and provide our-  
selves with a number of good games  
during the coming season if the lovers  
of the game get behind the management  
and the team after the Independents  
are gone.The first requisite is to organize  
an organization which can be  
done if a sufficient number of citizens  
make it known that Mr. Thompson  
is "it" for another season and that  
they will do their full part toward  
making the forthcoming season the  
most noteworthy in our baseball his-  
tory.SHOULD ACT ON THE PRESIDENT'S  
SUGGESTION.England having consented to a form  
of refusing the war debt owing the  
United States whereby that nation  
will ultimately pay \$25.00 for each  
\$100 of the principal through interest  
payments over a long period of  
time, it seems to the country at large  
that the Senate ought not waste time  
in acting upon President Harding's  
suggestion to approve the terms and  
conditions of the settlement.This is the first of the international  
debt problems which have been adjust-  
ed along such lines as recognizes  
the obligations of the borrower to re-  
pay the loan made in good faith dur-  
ing war time. There is properly  
some resentment at the criticism of  
Congress which England's representa-  
tive, as Chancellor of the Exchequer  
Baldwin, who came here to arrange a  
readjustment of debt-payment terms,  
but since the English government has  
accepted the terms of settlement it  
would appear that the somewhat  
proud chancery does not speak  
for the considerable body of the Eng-  
lish people when referring derisively  
to members of Congress as "wheat  
and cattle traders."The chancery's views and attitude  
do not cut much figure but decisives  
step toward a substantiation of the in-  
ternational indebtedness does. The  
Senate ought, therefore, to display the  
good sense and eschew party politics  
long enough to ratify the settlement  
and thus open the way for a com-  
plete adjustment of one of the most  
troublesome postwar problems.

# BUILDERS' GUIDE

**carey**  
JUMBO  
SHINGLES

## "The Shingle that Never Curls"

THE pleasing effect of homes roofed with Carey Jumbo Shingles is due, first, to the Indian Red, Sage Green and Beautiful Blue-Black crushed slate with which the shingles are surfaced; and second, to the shadow effect which is caused by the extra thickness of the butts. They are laid with a five-inch exposure to the weather which prevents over-formality in appearance.

Carey Jumbo Shingles are extra large, and are much heavier and more enduring than so-called standard shingles. They are water-proof, fire-resisting, and have important insulating qualities.

Carey Jumbo Shingles never curl, or crack, and they cannot fade. They require no upkeep for either painting or repairs. Ask us for further details.

This type of Down Draft Furnace, patented by DoPole and Prehler, is made particularly for the discriminating buyer, who is looking for the highest and most efficient type of furnace construction.

**METHODS OF HEATING**  
For the home nothing approaches the warm air heater. Much depends upon the installation of the warm air furnace, the kind of pipes used, and the proper installation of the same. Of course it is understood that no heating system will give satisfactory results unless it is adequate in size and properly installed. The house owner in too many cases has accepted the lowest bid on his heating job and has suffered the consequences.
